DETAILED ACTION

Examiner's Statement of Reason for Allowance

The following is an examiner's statement of reasons for allowance: the prior art does not teach or render obvious the claimed combination, in particular an image forming apparatus possessing a first power source circuit board disposed inside the main casing, the first power source circuit board outputting a drive voltage to the processing unit; and a second power source circuit board disposed inside the main casing, wherein the components of the first power source circuit board generate a larger amount of heat than the second power source circuit board; the first surface is formed with a first exhaust outlet exhausting air from the main casing; and the first power source circuit board is disposed downstream of the second power source circuit board in an air passage direction in which the air passes through the main casing and is discharged through the first exhaust outlet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW G. MARINI whose telephone number is (571)272-2676. The examiner can normally be reached on Monday-Friday 8:00 to 5:00.
